

New Task Force

Brussels, 6 October 2026

Defence & Security

Strengthening Europe's Defence & Security Capacities through Industrial Excellence

Europe is entering a new era for defence and security. In the quest to strengthen Europe's defence capabilities, the competitiveness, resilience, and contribution of Europe's technology industries is a key success factor.

To ensure that our industries' expertise helps shape these developments and that future policy is anchored in a strong, innovative and competitive industrial base, Orgalim is launching a dedicated **Defence & Security Task Force (TF)**.

This new platform will serve as Orgalim's hub for monitoring, analysing and influencing relevant EU defence and security initiatives. Particular attention will be given to the critical role of dual-use technologies, which sit at the intersection of industrial competitiveness, innovation and security.

Interested in joining the Defence and Security Task Force?

If you're interested to join the Task Force, please contact the Orgalim Secretariat for further information.

Orgalim represents Europe's technology industries, comprised of 770,000 innovative companies spanning the mechanical engineering, electrical engineering, electronics, ICT and metal technology branches. Together they represent the EU's largest manufacturing sector, generating annual turnover of over €2,972 billion, manufacturing one-third of all European exports and providing over 11,9 million direct jobs. Orgalim is registered under the European Union Transparency Register – ID number: 20210641335-88.
